

been picked up by a fishing schooner or tramp steamer without a wireless, or it may be drifting, in which case it probably will touch on the Jersey coast.

"We are trying now to find out the name of the passenger, the pilots and mechanics got on the job at 82d Street at 8 o'clock, but the office for the sale of tickets to passengers does not open until about 9 o'clock. The passenger arrived at the airport long before the office opened and apparently arranged with Miller for an immediate flight. The air voyage down past Long Beach and around Fire Island Light has frequently been made by our airmen."

## DANCING MASTERS URGE LONG SKIRTS FOR MORE DIGNITY

Here From All U. S. for Two Conventions.

Dancing masters from all parts of the United States and Canada were at two gatherings today in the Hotel Commodore. One was the 29th convention of the American National Association of Dancing Masters and the other the 29th convention of the International Association of Dancing Masters. Both conventions will continue through the week.

One of the important features of the convention is the probability of an amalgamation of the two organizations. Committees for that purpose have been appointed by both associations.

An outstanding feature of discussion this year will be a continuance of the dancing reform campaign as urged by Frederick C. Grant of New York City, who presided at today's sessions of the American Association.

Both organizations also have gone on record as favoring the dropping of the Methodist Church's ban against dancing.

Dress reforms or changes in style as they affect dancing also will come in for discussion. What steps can be taken to longer their skirts, and just how much more of dignity and less of agility in leg movement will secure as a result of the changes, will present interesting questions for determination, it was said.

## PRESIDENT WANTS 100,000 IN CAMPS

Urges More Army Training, but Only for Defense.

WASHINGTON, Aug. 21.—This country's principal concern is peace and the securities of peace, President Harding told 1,000 citizen soldiers he reviewed today on the broad ellipse, back of the White House.

"There is no thought of armed warfare, and no design to carry on an armed campaign in any direction," he said explaining the effort of the Government to induce young men to enter soldiers' training camps.

After pointing out that last year there were 11,000 men in the citizen training camps and that this year the number was increased to 28,000, the President said:

"If I could have my wish, this number would increase until more than 100,000 were annually studying and preparing for armed service, solely for national defense and the preservation of the Government."

## DIVORCEE SHOOTS MAN SHE ACCUSES

Says He Is Her Child's Father.

Moses Schneider, thirty, a salesman, of No. 1915 Southern Boulevard, who was shot in the Hotel Theresa, 12th Street and Seventh Avenue, yesterday by Mrs. Sarah Berlin of No. 1719 Marmon Avenue, Bronx, it was said today at Harlem Hospital, will recover.

Mrs. Berlin, whose husband obtained a divorce from her, says Schneider had promised to marry her and had refused, and even refused to care for a child she alleges is his. She said she did not intend to kill him, but wanted to hurt him. She is held without bail.

He denies her story. The shooting occurred in a room engaged by Schneider, who had registered as "Mr. and Mrs. Miller of Buffalo."

## JOKER, HE SAYS, LIMITS ADS. IN NEWSPAPERS

Senator Ernst Fights Pomerene Campaign Expenses Bill.

WASHINGTON, Aug. 21.—The Pomerene Campaign Expenses Bill, limiting Congressional campaign expenditures, contains a joker which would allow a candidate to spend "a million dollars for poster advertising" and limits newspaper campaigning to \$10,000, Senator Ernst, Republican of Kentucky, declared today.

"Surely it is not fair to allow a candidate to litter a State with posters while legitimate newspaper advertising is limited," he said.

Ernst, a member of the committee, said he would oppose the measure being submitted to the Senate in its present form, "because of the discrimination in favor of advertising."

## WIFE DYING; HUSBAND HELD

He Remembers Nothing of Night of Revolver.

As a result of injuries to his wife, said by the police to be in a dying condition in Bellevue Hospital, Edward Frank, fifty-two years old, of No. 324 East 9th Street, in Yorkville, was held without bail today in Yorkville Court, for examination Friday on a charge of felonious assault.

Frank was arrested yesterday after his wife had been taken from their home with a fractured skull and fractured ribs. Frank remembered none of the details of the drinking revelry of the night before, he denied he had injured his wife.

## SENIORITY STILL RUING OBSTACLE IN RAIL SETTLEMENT

Executives to Meet Again This Afternoon to Find Some Way Out.

There continued to be considerable doubt this morning in the minds of several railway executives who have been thoroughly acquainted with the progress of negotiations between the leaders of the railroad brotherhoods and the committee of eight railroad heads, as to whether a settlement of the shopmen's strike would be reached this week. It was stated in one authoritative quarter that it is at present impossible to determine whether the conferences had brought a settlement appreciably nearer.

It has been definitely ascertained that when the conference adjourned last Friday night, the negotiators were practically deadlocked.

The committee of railroad executives, so it is said, have been adamant in their refusal to concede from the stand they have taken that striking shopmen shall not regain seniority privileges equal to men who refused to go out on strike.

Brotherhood chiefs, acting as mediators for the shopmen, have agreed to this, but have been insistent that strikers be given seniority rights that shall be ahead of those granted to strike breakers who may be retained. This, it is now admitted, has been the crux of the negotiations, and it is the main point to be decided when the 148 railroad presidents have their general meeting at the Yale Club on Wednesday.

The question of wages is understood to no longer be a point of dispute in the negotiations. Strikers, so it is stated, have agreed to accept the 5 per cent cut ordered by the Railroad Board, which cut precipitated the strike.

Information from a source which must be considered authoritative is that a large number of railmen, particularly those representing Western lines, appear willing to restore to strikers seniority privileges second only to those enjoyed by loyal men. But among Eastern Presidents there appears to be a disposition to insist that strikers be taken back as new men.

A number of Eastern Railroad Presidents will meet this afternoon at the office of L. F. Loree, President of the Delaware and Hudson Railroad, to further thresh out the seniority question. Mr. Loree has been one of the best conspicuous "diehards" on the seniority issue. It is believed that if the Eastern Presidents who meet this afternoon agree to concede from the stand they have taken that strikers be taken back only as new men, a settlement of the strike will be practically assured.

## SCORES SEARCH FOR BODY OF PHIPPS

Swept Overboard in Storm From Speed Boat in Sound.

Search was resumed today in Long Island Sound, between Oyster Bay and Port Jefferson, for the body of Donald A. Phipps, son of Amos J. Phipps, wealthy lumberman, who was swept off the bow of his speed boat and drowned early Saturday evening. More than a score of power boats are patrolling the waters while many friends searched the beaches and woods along the shore in the hope that perhaps the young man had reached the shore in an exhausted condition.

The search began early yesterday morning, but no trace of the body was found up to a late hour today.

## PAY OF HEALTH OFFICER IN GLEN COVE HELD UP

Decision Reserved in Mandamus Proceedings to Get Salary.

Justice May in Brooklyn today reserved decision on the application of Dr. Joseph B. Connolly for an order of mandamus to compel the Commissioner of Finance of Glen Cove to pay to Dr. Connolly his salary as health officer for April and May. Jackson A. Byrman, his counsel, explained that Dr. Connolly was appointed temporarily in January, 1918, shortly before Glen Cove obtained its charter as a third class city. In October of the same year he was appointed health officer of the new city, having passed the civil service competitive examination.

Last April the Commissioner of Finance appointed a new health officer and refused to pay further salary to Dr. Connolly, claiming that the term for the health officer is four years without reappointment. Justice May asked that both sides submit briefs.

## COL. GRANT HURT IN AUTO SMASH

Suffers Lacerations When His Car Collides With Another.

Col. Sidney Grant, commander of the 15th Coast Defense, living at No. 184 Prospect Place, Brooklyn, it was learned today, was injured on Saturday last in an automobile collision on the Merrick Road, near Southampton.

The machine, with the Colonel, his wife, two friends and a chauffeur, ran into another when the latter one skidded in the rain.

The Grant machine was smashed up and Col. Grant sustained severe lacerations of the head and back. He was attended by a physician at Southampton, and is about today in bandages.

## COAL COMMISSION PROVIDED FOR IN BILL BY WINSLOW

Plans Quick Report on Measure Conveying Wide Authority.

WASHINGTON, Aug. 21.—Chairman Winslow of the House Commerce Committee, after a conference today with President Harding, announced he would introduce immediately a bill to create a fact finding coal commission as recommended by the President in his special message to Congress.

The measure, Mr. Winslow said, would call for appointment by the President of a commission not to exceed nine members, with instructions to report to the Chief Executive and Congress by July 1, 1923. The commission would have wide powers of investigation, including the right to examine the books of various coal producing companies.

Mr. Winslow said his committee would meet later in the day to consider the measure with a view to an immediate favorable report.

President Harding's recommendation of "A Government commission, independent of the industry, clothed with authority by the Congress to search deeply, so that it may advise as to fair wages and as to the conditions of labor and recommend the enactment of laws to protect the public in the future," is expected to bring an early clash on the question of Government regulation of the coal industry.

Senator Borah, Chairman of the Senate Committee on Education and Labor, said today he expected to call in his committee this week the bill which he introduced along these lines several weeks ago. Pres. Harding did not specifically endorse the Borah measure, but his suggestions of coal legislation tally closely with its provisions.

It is now up to the Executive to put behind the legislation Republican Senators such as Du Pont of Delaware, Phipps of Colorado, Warren of Wyoming, and Shortridge of California, who have been among the most determined opponents of Governmental interference with industry. These Senators are members of the Senate Committee on Education and Labor. Their opposition has, up to this time, blocked consideration of the Borah bill. The question is whether the Executive will be strong enough to bring the recalcitrant Republicans around to his viewpoint, or whether, having made a recommendation, he will wash his hands of the responsibility for bettering conditions in this industry.

## FERRY COAL SUPPLY WILL LAST A WEEK

Average Price Now Is \$15 a Ton, Says Whalen.

Grover A. Whalen, Commissioner of Plant and Structures, announced this morning that the Staten Island ferries now have coal enough to last six more days. The stock includes a large load received today.

"We are not doing any more buying just now," he said, "and before we do buy we will let the coal be analyzed. There is one large load in the harbor now which has been rejected by eight purchasers, because it is almost all dust. The average price now is \$15 a ton."

Mr. Whalen said there would be no further cut in ferry service at present.

## MORE PENNSYLVANIA MINES ARE OPENED

PITTSBURGH, Aug. 21.—Coal is being mined at the rate of 30,000 tons a day throughout the western Pennsylvania district, according to reports received today by mine officials. This is about one-fourth of the district's normal production. A number of small operators signed agreements today.

## WASHINGTON SEES DEADLOCK DANGER IN RAIL STRIKE

New Proposal on Seniority May Solve Problem

WASHINGTON, Aug. 21.—Settlement of the railroad strike this week seemed more remote here after word had reached Washington that the executives and brotherhood chiefs are deadlocked in the New York conference on the seniority issue.

There is still some belief that the strike can be adjusted when the committee meet Wednesday. Secretary Davis and Chairman McChord of the Interstate Commerce Commission share the view, it was said, that the situation is far from impossible. But other Administration leaders in close touch with New York report things have taken an unfavorable turn.

It was learned that a new proposal has been forwarded to New York by Secretary Davis.

As outlined, the plan provides roughly that the men who remained with the roads shall have seniority rights against men who have come back to the extent of the time the men on strike stayed out.

Consideration of this plan is declared to have been the last work of the conference before it adjourned Friday night to meet this week. The action on it was tantamount to a refusal by both sides, which is interpreted by the Administration leaders here as meaning that up to date the New York conference has accomplished little or nothing.

## Two Heroic Policemen in Long Swim Rescue Two Women and Men

Patrolmen Hearing Cries From Midstream in Darkness, Go Out in Launch, Leap Into Rough Water, and Save Four.

After clinging to an overturned canoe in the wind-swept Hudson off 200th Street for more than half an hour last night, four persons were rescued by two patrolmen who jumped overboard and carried them fifty yards to a launch, which was unable to approach the smaller craft because of the rough water.

Those rescued are Holland Hudson, thirty-two years old, of No. 2353 Davidson Avenue; his wife, Lillian, twenty-six years old; Lester Chandler, twenty-eight years old, of No. 2356 Grand Avenue, and Miss Charlotte Karch, twenty-three years old, of No. 2356 Davidson Avenue, all of the Bronx.

"The four had gone out together for the day. They rented a canoe from a boat club, put on bathing suits and remained on the water until after dark. Then they decided to go to shore. The wind, which had increased greatly, overturned the canoe.

All four could swim but because of the swift tide and high wind they decided not to attempt it. Hudson told the others to cling to the canoe and shout for help.

They were in midstream but their shouts were re-echoed from the Jersey shore and were heard by Patrolmen William Hauser and William Agnew of the West 177th Street Station, who were near 200th Street. The cries were also heard by Capt. Charles Bernard of the West Boat and Canoe Club, who jumped into his motor boat and with the two patrolmen speeded in the direction from which the calls for help came.

As the launch approached the overturned canoe the patrolmen and Capt. Bernard decided it would be inadvisable to go alongside because of the danger of a collision. Patrolmen Hauser and Agnew took off their shoes and coats, removed their revolvers and jumped into the water.

They swam to the canoe and carried the two women back to the motorboat. Capt. Bernard drew the women aboard and the patrolmen returned to the shore. The rescued party was landed at the West Boat and Canoe Club, where they were cared for until they were able to dress and go home. They said they could not have clung to the canoe much longer and were near exhaustion when the patrolmen came to their rescue.

## N. J. TOASTMASTER SHOT TWO GUESTS, IS POLICE CHARGE

John Battallo, thirty-four, of No. 146 Brook Street, Jersey City, is dying in the City Hospital with a bullet hole through his abdomen, and Thomas Bracomoro of No. 47 Brook Street, has bullet wounds in the jaw and right thigh to-day, as the result of having been shot, according to the police, by the toastmaster of a banquet they attended last night.

James Vitelli, forty, of No. 1 Brook Street, is being held without bail charged with the shooting. Vitelli was acting as toastmaster of the banquet of the Little Jean Association, No. 129 Golden Street, when a toast was offered to his health.

"If you drink this I hope you will spill your blood," Vitelli shouted, according to those present. None of the banquetters has been found who knew what he meant.

Bracomoro repeated the remark, whereupon, according to the police, Vitelli shot him twice, and when Battallo attempted to intercede he also was shot. A riot followed and police reserves were called to suppress it. Vitelli was caught at Pacific and Grand Streets after a chase.

## TARIFF CONFERENCE DELAYED BY PRINTING

Forney Says Bill May Be Ready for Action To-Morrow.

WASHINGTON, Aug. 21.—So numerous were the changes made in the Administration tariff bill during its stormy course through the Senate that the experts and Government Printing Office, working jointly and overtime, were unable to get out a new print over Sunday.

Chairman Forney of the Ways and Means Committee said today he expected the reprinted bill to be ready to-morrow. In that event, he added, the conferees would begin work late to-morrow or Wednesday.

The House, expecting the tariff to be sent to conference, had a quorum today for the first time since reassembling last week. The roll call showed 243 members present, or twenty-eight more than a working quorum.

## LABOR HEADS CONVICTED

CHICAGO, Aug. 21.—Thomas Walsh, Frank Hayes, Patrick Kane and Roy Shields, labor union leaders, were all found guilty Saturday of conspiracy to extort, by a jury in the Criminal Court, and the penalty for each was fixed at one year's imprisonment in the County Jail.

## BRAVE POLICEMEN WHO RESCUED FOUR FROM DROWNING

## FRANCE TO DEMAND MINES AS PLEDGES

German Forests Also Before Moratorium Is Granted.

BAR DE LUC, France, Aug. 21 (Associated Press).—France will not consent to a moratorium of any character to Germany unless the German state mines of the Ruhr and the national forests are placed in the hands of the Allies as a guarantee, and no matter what happens France will not depart from this policy.

Such was the position of the French Government as outlined this afternoon by Premier Poincare at the opening session of the General Council of the Department of the Meuse.

"We welcome a broad and generous European policy," he said. "We fervently desire to remain Allies of our Allies and friends of our friends. We ask nothing better than to resume with our enemies of yesterday pleasant and courteous relations. But we wish to have our ruins repaired—and they will be."

"If, contrary to our desires, we are forced to take independent action without the approval of our Allies, we shall make no effort to retain indefinitely the guarantees which we may take \* \* \* only until Germany consents to meet her just obligations."

## MICHIGAN COAL MINERS RESUME WORK

SAGINAW, Mich., Aug. 21.—Coal operations were resumed in the Michigan coal mines this morning. Reports from the Saginaw Valley were that virtually all mines were back at work, with indications normal production would be reached by the middle of the week. There are eleven mines employing approximately 2,400 men.

## SPEEDWAY PLANS HINGE ON THE WORLD SERIES

Opening to Autos Oct. 12 If There's No Ball Game.

Acting Park Commissioner John J. Ryan today announced that unless the playing of the World Series interfered the formal opening of the Speedway to automobile traffic would take place on Oct. 12.

The Speedway, built for drivers thirty years ago, has been thrown open to auto traffic by legislation, and \$300,000 appropriated for rebuilding the road to stand it. In the celebration several civic societies and business associations of Harlem will take part.

## BIG 4 TO STICK, SAY THE LEADERS

Warren A. Stone Insists That Men Will Not Be Drawn Into Strike.

CLEVELAND, Aug. 21 (Associated Press).—There is no danger of the "Big Four" railroad transportation brotherhoods being drawn into a sympathetic strike, even should negotiations to end the strike of the shop crafts workers fail. This was the declaration made by Warren A. Stone, President of the Brotherhood of Locomotive Engineers, and D. B. Robertson, President of the Locomotive Firemen and Engineers.

"There are safety laws to take care of the defective equipment which would endanger the lives of our railroad men, and it will only be necessary to enforce those laws," said Stone.

## PARK BENJAMIN DIES AT STAMFORD OF HEART FAILURE

Father-in-Law of Caruso Was in His Seventy-Fourth Year.

STAMFORD, Conn., Aug. 21.—Park Benjamin, widely known patent lawyer who was the father-in-law of the late Enrico Caruso, died today of heart disease at Shippam Point in his seventy-fourth year. He was editor of the Scientific American and other magazines at various times during his career.

Park Benjamin, the son of Park and Mary Western Benjamin, was born in this city in 1849. He was graduated from Trinity School in this city and from the United States Naval Academy in 1867. He resigned as an ensign in 1869 and studied law at the Albany Law School, becoming a specialist in patent law regarding electrical inventions. He wrote much on naval and electrical subjects, on which he was recognized as an authority. Union College conferred the degree of Doctor of Philosophy on him in 1877. Mr. Benjamin was married to Miss Ida E. Crane in 1891.

Their daughter, Dorothy Benjamin, was married to Enrico Caruso, the great tenor, Aug. 20, 1918, against her father's wishes and Mr. Benjamin wrote letters in his most incisive style to the newspapers explaining his feeling in the matter. Other daughters married F. W. Goddard and William Gurney.

Mr. Benjamin's home in this city was at No. 270 West 73d Street, and his offices were at No. 145 Broadway. He was a member of the Military Order of the Foreign Legion, the British Chartered Institute of Patent Agents and the author of "The Early History of Electricity" and the "History of the United States Naval Academy." He was the first to propose the organization of the Naval Reserve Force.

Paul Benjamin Jr. and Rosemary Benjamin, sons of Mr. Benjamin, are out of the city for the summer. Following the break between Mr. Benjamin and Mrs. Caruso there was discussion between him and his five children because of his adoption of Miss Anna M. Bolch, a former Governor for his daughter at Wilkes-Barre, Pa., in December, 1919, while his wife was ill in a sanitarium near Goshen.

## ALLEGED YEGGMAN LEAPS TO FREEDOM FROM JAIL WINDOW

PITTSBURGH, Aug. 21.—Sensational escape of Frank Watkins, suspected gunman and bank robber, from the second-story window of the Warden's apartment in the Allegheny County jail started a man-hunt of the surrounding territory to-day. Watkins' daring leap was witnessed by a deputy coroner, who sounded the alarm.

It was believed that Watkins' sweetheart, who lived in Carnegie, Pa., accompanied him. She was missing from her home when authorities made a raid. Witnesses have identified Watkins as one of the four bandits who held up the Bolivar State Bank in July, 1919.

## FIRE ON "L" ROAD TIES UP TRAFFIC

For Five Minutes Southbound Trains Are Held Up.

Traffic on the southbound tracks of the Second Avenue Elevated Line was delayed for five minutes today while firemen extinguished a slight blaze on one of the ties, at Division and Eldridge Streets. A citizen who saw the blaze from an upper window of a nearby tenement house turned in an alarm.

Firemen under Deputy Chief McKenna responded and after mounting the elevated structure with a 35-foot ladder soon put the fire out with hand extinguishers.

## STRUCK BY AUTO AT FIFTH AVENUE AND 42D STREET

Crossing Fifth Avenue at 42d Street today, Irving Bracken, thirty-two, a clerk, of No. 25 West 42d Street, became disabled at an approaching auto and halted directly in its path.

The machine, owned and driven by Alexander Lazetelle, of No. 405 West 177th Street, struck him causing possible internal injuries. He was taken to Bellevue Hospital where his condition was reported to be serious.

## FLOOD OF ORDERS SENDS STOCKS UP, ESPECIALLY RAILS

Market Strongest Since Coal Strike—Three to Five Points Gains.

Buying in the stock market today became so urgent that the list, taken as a whole, gave the most pronounced exhibition of strength witnessed since the bituminous coal strike went into effect about five months ago.

There was especially heavy buying of the railroad shares, and more than a dozen issues in this group registered new high marks for the year. Gains of two points or more were common. Gains compared with the closing prices of last Friday, when the rail strike conference adjourned, ranged from 3 to 5 points.

Among the rails that rose to new high points for the year were New York Central, which touched 100 for the first time since 1917. Union Pacific, Norfolk & Western, Baltimore & Ohio, Southern Railway, Atchafalpa and others of like importance.

Strength was fully as pronounced in public utility shares, equipments and industrials generally, with the exception of coppers and oil stocks. Transactions totaled more than a million shares for the first time in two months.

## ADMIT SWINDLE, JERSEY POLICE SAY

Note Slipped to Mother Brings Confession.

An attempt on the part of Harry Monet, under arrest in Newark for attempted swindling, to slip a note to his mother in a match safe while she visited him yesterday led to his confession, according to detectives, that he is the man who obtained \$2,000 from the Lawyers Title and Trust Company of this city on a forged check a few weeks ago. The name forged to the check was that of Charles W. Sloane.

Monet's method was similar to that of a man who has succeeded in swindling several New York banks and narrowly missed getting \$15,000 worth of Liberty bonds from Clarke Bros. early this month. In Newark he deposited with a broker a certified check for \$15,000, the signature of which was forged, but the certification of the bank was genuine. Then he sent a small boy to the broker's office with a note asking for \$500 in cash and \$14,000 worth of bonds. The boy was given a dummy package and led detectives to Monet.

## BEATEN, PASSING THROUGH R. R. YARD

Man Mistaken for Strike Breaker May Lose an Eye.

Mistaken for a railroad striker, Alexander Gilen, thirty-eight years old, of No. 155 Bright Street, Jersey City, was set upon by two striking shopmen yesterday in the yards of the Pennsylvania Railroad, at Gates and Garfield Avenues, that city, and so badly beaten that he will lose the sight of his left eye. His assailants escaped.

Gilen was walking through the yards, taking a short cut to his home, when attacked. Without warning the two men leaped on him and, after knocking him down, kicked and beat him severely. One of the men kicked him between the eyes, blacking both organs and so badly injuring the left one that surgeons at the City Hospital said they could not save it. Dr. Kantor of the hospital took him there in an ambulance, and police are searching for Gilen's assailants.

## HELP WANTED—MALE.

DESIGNER and Foreman for cutting room for women's high grade turn shoes. 12 P. 450 World, uptown.

## LOST, FOUND AND REWARDS.

LOST—On Saturday, jeweled bracelet, pin, name and number on back, Fraternity Mansfield 7700.
